Grading

Karyukai Grading is based on nomination by Sensei. Regular attendance is a must to be taking any grading. Nominations are not only based on technical and physical development but also individual progress of character maturity. Further information of grading is available via Member's page from our website. The password is "isit".

Facebook

We have closed Facebook group page. The pictures of club activities are uploaded to this page and only club members are invited to join the group. We also offer messenger group chat where you can exchange information and ask questions to each other. This is very convenient for getting together outside of the dojo hours and prepare for grading. Please send a messenger message to Natsuko Mineghishi upon becoming a club member.
